SmartData Solutions™

Featured Projects

SmartData Solutions was used to delineate a source area under a manufacturing building. The resulting 3D images helped to focus remedial efforts, thereby saving time and cost. Earth Tech's client remarked, "This was the best data he had ever seen!" Dave Rosecrance of Oak Ridge, Tennessee was asked by the TDEC to present the results at their Haz Waste conference in Gatlinburg, Tennessee in May 2002.

Movie Information

■ Play the movie

The Movies (.AVI files) contained on this CD can be viewed with Microsoft Media Player. In the event the movie does not play, you may need the appropriate decompression software.

We have enclosed this software on the CD. To install this software, simply run the file and select "install" when prompted.

Install
Decompression
Software

Click the link above,
then click "Open" to
run setup program.

■ Use another Media Player then what comes with Windows

As an alternative to Media Player, we have included a viewer called **Camtasia Player** that can be installed free of charge. This is in our view a very good product and should be used in case Media Player fails to play the

■ Completed Deliverables

As your order is completed, each item will be added to this screen. Your sitemap is still available by clicking on the "Sitemap" heading below.

You can get this content delivered to you on a CDROM, please contact your sales representative or the SmartData Solutions™ Team for assistance.
